CATEGORY 1

Electrolytes & Energy Supplements

Hydration, electrolyte balance, heat stress response, and recovery support for performance continuity.

ELECTROLYTE & HYDRATION

Veta-Electro

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Maintains electrolyte balance
- Supports hydration during stress
- Helps manage heat load
- For poultry and livestock

ENERGY RECOVERY

Veta-EnergyPlus

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Rapid hydration support
- Instant energy recovery
- Supports heat-stress response
- Improves post-stress recovery

HEAT STRESS FORMULA

Veta-HeatShield

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Maintains hydration
- Supports feed intake
- Helps manage heat stress
- Protects productivity

POST-STRESS RECOVERY

Veta-Recovery

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Restores hydration
- Supports faster recovery
- Improves feed intake
- Promotes performance stability

CATEGORY 2

Multivitamins & Nutritional Boosters

Nutritional support for immunity, growth, productivity and flock or herd performance.

VITAMIN PREMIX

Veta-VitaPlus

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports immunity
- Promotes growth and productivity
- Improves feed conversion
- Enhances overall health

MULTIVITAMIN SUPPORT

Veta-VitaBoost

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports growth
- Improves immunity and recovery
- Supports feed efficiency
- For poultry and livestock

IMMUNITY SUPPORT**Veta-ImmunoPlus**

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports immunity recovery
- Aids detoxification
- Improves performance
- Safe and effective support

GROWTH FORMULA**Veta-GrowthPlus**

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Enhances feed conversion
- Supports weight gain
- Promotes uniform development
- Improves growth performance

CATEGORY 3

Mineral Mixtures & Feed Supplements

Balanced feed supplementation for productivity, mineral status and amino acid nutrition.

MINERAL BLEND

Veta-Mineral

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports bone strength
- Improves productivity
- Supports immunity
- Improves performance

CALCIUM SUPPORT

Veta-CalMax

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports bone strength
- Helps mineral balance
- Supports productive performance
- For veterinary use

**AMINO ACID
SUPPLEMENT****Veta-Lysine**

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports growth
- Improves protein balance
- Aids performance
- Suitable for formulation programs

CATEGORY 4

Liver & Digestive Care

Gut health, liver support, digestion and nutrient utilisation solutions for intensive farming.

LIVER SUPPORT

Veta-LivCare

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports liver function
- Aids detoxification
- Supports metabolism
- For veterinary use

LIVER HEALTH & DETOX

Veta-LivBoost

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports liver function
- Aids detoxification
- Improves performance
- High bioavailability

PROBIOTIC GUT SUPPORT

Veta-ProBio

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Promotes balanced microflora
- Supports gut balance
- Aids digestion
- Supports immunity

DIGESTIVE ENZYME

Veta-Enzyme

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Improves nutrient utilisation
- Supports digestion
- Enhances feed efficiency
- For veterinary use

FIBRE DIGESTION

Veta-Fiberase

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Improves fibre digestion
- Enhances nutrient availability
- Reduces gut viscosity
- Improves FCR

INTESTINAL HEALTH

Veta-Butyrate

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports intestinal integrity
- Enhances nutrient absorption
- Improves feed efficiency
- Supports gut health

CATEGORY 5

Toxin Control & Gut Modulators

Feed safety, mycotoxin management and gut modulation solutions for buyer confidence.

MYCOTOXIN BINDER

Veta-Binder

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Helps bind dietary toxins
- Supports gut integrity
- Promotes feed safety
- Multi-component solution

TOXIN CONTROL

Veta-ToxGuard

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Helps manage mycotoxins
- Supports gut health
- Enhances feed safety
- Improves performance

GUT MODULATOR**Veta-MOS**

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports gut microflora
- Helps block harmful pathogens
- Enhances immune response
- Improves feed efficiency

YEAST CULTURE**Veta-Yeast**

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Supports microbial balance
- Enhances digestion
- Improves nutrient absorption
- Supports immune function

CATEGORY 6

Specialty Veterinary & Biosecurity Solutions

Farm hygiene, water sanitation and biosecurity support for safer production environments.

WATER SANITISER

Veta-AquaSafe

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Controls microbes
- Removes biofilm
- Improves water hygiene
- Supports animal performance

FARM DISINFECTANT

Veta-BioGuard

Manufactured and exported for international poultry and livestock markets.

Key benefits

- Broad-spectrum protection
- Targets bacteria and fungi
- Supports farm biosecurity
- For poultry and livestock
